## E. P. WHEELER'S VIEWS.

Answers Garrison and Says Suffrage Movement Is Harmful.

Everett P. Wheeler, chairman of the Man Suffrage Association Opposed to Political Suffrage for Women, yesterday recently made by Secretary of War Garrison supporting woman suffrage. In the contradicts the main point made by Mr. Garrison, which was that no harm can come by extending the suffrage. He charges that in States where women have wen the right to vote they have used it to pass legislation that has proved not only foolish, but destructive when put in effect. "We think that the result in Colorado

is probably the fairest test." he explains. "Women have had the suffrage there since 1893. Many of them have taken an active part in politics. One of the first things their committee did when President Wilson was inaugurated was to telegraph him asking for of-fices. They favored the adoption of that evil system, the judicial recall, if a court in that State should decide that an act of the Legislature is in violation of the Constitution it has no power to enforce this decision for ninety days after its judgment is entered. The Colorado Legislature could pass and enforces the state of the colorado legislature could pass and enforces. force a law putting a man to death with-out trial or confiscating his property and he could get no redress in the State court. The law could be executed before

the law could interfere.

"You have seen the inability of the Governor of that State to protect the rights of persons and property, and to enforce the laws. We have been obliged enforce the laws. We have been obliged beend United States troops there for eight months to do what the State government should have done. As we see it, this lawlessness and disorder are largely the result of the constant interference of women politicians to harass the Executive. The result was what was to be expected. No statute can change human nature. Whatever law may be passed in regard to woman voting, the good wives and mothers will devote their energies to their families."

## TWO WILL WED WITH LOVE AS SOLE CHAIN

Pastor Bouck White Announces Union With Affection as Only Basis.

HE BELIEVES IN DIVORCE

Bouck White, pastor of the Church of the Social Revolution, told his congregation yesterday that he would officiate at a Socialist marriage to-morrow in which a Jersey City couple would be united as husband and wife only as long as they loved one another and no longer. If love ended then it would be a matter for the divorce courts.

Into a marriage. A joining of spirit to spirit to spirit alone can make you husband and wife one and marriage has come to disastrous termination. The divorce courts testify that a marriage consequence only by exterior celebration is no marriage but a mockery and a sorrow. Where love is not, marriage is not.

"No clergyman has the right to bind a man and a woman together so long."

"No clergyman has the right to bind a man and a woman together so long." Speaking of Miss Daisy L. Johnson of 179 Winfield avenue and Victor A. Killan of 162 Griffith street, Jersey

City, the two who are going to be married, Mr. White said: "I express gratitude to a couple who have the idealism to see the need for a new freedom in marriage and the courage to carry it out."

No Divorce for Adam and Eve. But before Pastor White began to

cialist marriage after reading Houck White's book, and, although they found a Jersey City minister who promised to make his ritual conform to that ceremony, they thought they would wait until Mr. White got oack from Europe.

"We're not ashamed of the ceremony," said Miss Johnson, "but we don't like the notoriety it is bringing us."

The Turkish woman is beginning to feel the feminist sweep," he said. "In Constantinople the veil is becoming hinner about her face, and the coming

latest thing in love affairs.

"The marriage rite of the Socialist Church, by openly recognizing divorce, is a safeguard against divorce. Marriage is a joyful event, says our ritual. I shall tell the young man and young woman whom I marry to-morrow:

"'You' have come to me as the leader of this church, that ? may unite you in matrimony. It is incumbent on me, however, in all candor to inform you that no word I may speak or rite that I personally may celebrate is of power to bring that state of affairs to pass. Marriage is an interior uniting, or it is not a marriage. A joining of spirit to spirit alone can make you husband and

a man and a woman together so long as life shall last. Neither wedding day solemnities nor offices of earnest friends nor all the power of Heaven itself shal be of potency to keep together two souls that are not themselves resolved to be one. Therefore, if the marriage here beginning is to be permanent, you your selves must make it permanent."

"Marriage Bell" Is Ready, But before Pastor White began to speak of the Socialist marriage he said that the Catholic Church's attitude toward divorce was "a sign that its people merely account marriage a breeding institution—a union only of the body and not of the soul. Adam and Eve had no divorce problem because they were united only on the plane of breeders."

Then he painted a picture of Turkey, from which country he has just returned, as suffering from an invasion of Germans who are stealing the love of the Turkish women, these women Miss Johnson and Mr. Kilian wer-
